WORK EXPERIENCE

GoParties India Pvt. Ltd. (Nov 2017 – Mar 2020)

Leading creative designing leg and helping in web design of goparties website for a fluid design. Provided technical assistance for development.

BoxEngage - GoParties Alternative (Apr 2020 – Current)

Leading creative designing leg and helping in web design of boxengage website and mobile app for a fluid design. And do the backend support as well for the content creation on the product as well as event live broadcasting like an OTT platform.

PROJECTS

My Personal Practices

<https://github.com/iamanandsoni>

GoParties Consumer Website

This web app is for find happening parties in town in 10+ big cities of India. Consumer can find their nearby parties as per their like genre on their relevant date and book them as well and book venue table too. Consumer can update their profile also.

<https://www.goparties.com>

GoParties Business and Admin Website

Business App Detail : This project was for business who has party venue, who can use this to make their event and add their venue and post their articles on GoParties Consumer app.

Admin App Detail : This project was for GoParties Backend, GoParties team is using this for those party venue who are not taken the Goparties Business App so team are manually added their things like profile their events and articles for content engage and reach.

BoxEngage Website (Alternate of GoParties)

This app is alternate product of GoParties, where goparties was unable to do physical event because of covid pandemic, so Indian Gov. has banned all physical events throughout the whole country after that Goparties revenue had stopped so from there came an idea to do events online and then GoParties team, management among I, We now make web app named BoxEngage – An OTT Platform where you can do your events online and so more features like live broadcasting, short video making, one to one session, whole team/class session and so on.. and currently working on team video chat feature like **zoom/meet** in the same product.
